Abacus Calculator

Numeric keypad with integrated calculator

Abacus Calculator is a combination of a keypad and integrated calculator for simple data entry into your Notebook! It is USB-compatible and by way of Plug & Play available for the following operating systems: WIN 98/ ME/ 2000 and XP. Notebook keypad and Abacus Calculator can be used simultaneously for data entry without synchronization problems!
The calculator functions are pre-defined on 12 keys! Calculation results are sent directly to the Notebook applications. Selectable rounding systems and decimal places as well as the automatic power-off function are some of the many benefits of the Abacus Calculator.

The two-source power supply unit allows for operation of the calculator connected to a Notebook (via USB) or by using the built-in battery!

Combination of numeric keypad and calculator. user´s manual. 12 pre-defined calc function keys. simple data entry - sends calculation results directly to the Notebook applications. USB-compatible.
